## CLEANING AND SANITIZING PROTOCOLS

The facility is cleaned nightly using industry standard disinfectants.

We have purchased foggers and their associated disinfectants which are the same as those being utilized by the City of Edmonton - ETS.

We take all appropriate measures and precautions to ensure that our facilities are safe for all our employees and the players/referees/coaches. Here are some measures that we have implemented, in addition to the regular defogging:

- Plexi-glass barriers in all areas where physical distancing cannot be maintained (e.g. at the entrance)
- Increased frequency of cleaning and sanitation on all high touch surfaces and areas
- Additional hand sanitizer stations have been added throughout our facilities
- Remote thermal scans for all employees and players/coaches/referees upon entry
- Dressing room benches are disinfected prior to occupancy
- Players' benches are disinfected between cohorts and overnight
